SUBJECT: VIEWING OF POD VIDEOS

On 30 January 12, at approximately 1630 hours, reporting intern Theresa Galdek viewed pod 109 (located at 6959 S. Winchester).

This was a rotating pod which surveyed a residential area with numerous housing complexes. There is minimal traffic that goes by as well as minimal human traffic on foot. The location and time of the incident under investigation fails to canvas the allegation that had taken place.
